

Celebrate your people

Create memorable, lasting experiences for your employees' career milestones

Everyone deserves to be honored and celebrated. **Inspirus® Celebrates** Employee Recognition Packages for service milestones, performance awards and retirement give you everything you need to easily implement a personalized, cost-effective recognition program within your budget.

A Customized End-to-End Experience for Employees

A meaningful employee experience that makes them feel valued starts with a personalized congratulatory email message from your CEO on their service anniversary. Print and digital packages with a certificate, an award selection brochure and an easy, online ordering catalog complete the journey. Packages expand to include branded, beautifully boxed Lucite awards, framed certificates and commemorative items.

Employees can choose from a wide variety of awards that are meaningful to them using an intuitive online interface and simple ordering process. Our curated collections feature 500+ name brands and over 100,000 SKUs across a variety of categories including luxury and lifestyle products, jewelry and traditional merchandise favorites.

Full Administrative Support for Managers

- Budget-aligned, carefully curated gift award levels
- Email reminders, ranging from standard to customized
- 24/7 on-demand reporting via the website
- A survey, complete with benchmarks to gain instant feedback
- Shipping options that include recipient, manager, or bulk to one address and progress to more customized possibilities with multiple 'ship to' locations
- Billing flexibility from a simple, centralized solution to more complex for multiple locations

inspirus Celebrates

The Gratitude Package, implemented in as little as two-three weeks, is designed for companies who desire name brand awards and a speedy implementation.

The Applause Package is ideal for organizations who need segmented billing and want to align the program with a recognition brand and takes approximately four-six weeks to launch.

The Joy Package is for organizations with complex data, billing, and multiple locations who desire to create their own custom assets. This program is our most robust, but can be implemented between 7-12 weeks.
