

Build community & purpose

Empower employees to create connections that make the most of every experience

Everyone wants to feel valued and belong. **Inspirus'** technology-enabled platform **Connects** provides organizations a central location for employees to interact, celebrate accomplishments and birthdays, share and receive social recognition, build community with each other and discover more about their company and initiatives.

Elevate your Employees' Experiences

Recognition is one of the most powerful drivers of engagement. Inspirus® Connects provides one unified platform to deliver recognition and an enhanced employee experience in alignment with your culture and values. Encouraging the right behaviors at your organization such as diversity and inclusion, leadership, safety, health and well-being — using spot rewards point-based systems when it makes sense — will drive performance and encourage your employees to be more innovative and productive.

From onboarding on day one, to recognizing service anniversaries, birthdays, life events, milestone achievements and finally retirement, consistent and continuous communication with meaningful, curated awards and gift cards, tells your people you value them. And attracts top talent, too.

inspirus Connects

Easy for Users

- Personalized profile with seamless single sign on
