

Create a WOW experience

Establish a complete rewards and recognition journey for every employee

Inspirus is an industry leader in employee engagement and recognition. For **100+ years**, our innovation has empowered market-leading companies to use rewards and recognition to enhance their employee experience. Improving employee engagement adds to your bottom line too, by improving productivity 18%, increasing profitability 23% and reducing turnover by as much as 43%.*

The desire to belong is an emotion shared by everyone.

Inspirus taps into this powerful motivator with technology-enabled solutions that connect employees to their colleagues, senior leaders and company culture. Our blend of technology, communications, and unique methodology creates the framework for successful employee programs that reward and encourage desired behaviors and activities.

Our programs focus on three main areas:

- Recognition of achievements, life events, service anniversaries, retirements and more
- Social interaction, providing a familiar place where employees can express themselves, connect with others and create social connections through likes, comments and emojis
- Rewards that celebrate achievements in the way that motivates them: points towards merchandise or traditional service awards

For complete coverage and support, our teams include Solution Architects, Account Management, Implementation, Merchandising, Customer Service, Creative Services and more — everything you need to create a comprehensive rewards and recognition program.
